“Candidates in the 2022 Ontario elections need to put housing at the forefront of their campaign platforms. Both ownership and rental markets have recovered from the effects of the pandemic, but competition for ownership and rental properties is once again tight.”

GTA REALTORS® RELEASE OCTOBER STATS

TORONTO, ONTARIO, November 3, 2021 – Home sales in the Greater Toronto Area (GTA) reached the second-highest level on record for the month of October. However, the inventory of homes for sale did not keep up with demand. The number of new listings was down by approximately one-third compared to October 2020. Market conditions tightened across all major home types compared to last year, and the annual rate of average price growth remained in the double digits, including for the resurgent condominium apartment segment.

"The only sustainable way to address housing affordability in the GTA is to deal with the persistent mismatch between demand and supply. Demand isn't going away. And that's why all three levels of government need to focus on supply. The federal government has stated that collaboration with provinces and municipalities is required. This collaboration could be spearheaded, at least in part, with housing-related incentives tied to federal infrastructure investment," said TRREB President Kevin Crigger.

GTA REALTORS® reported 9,783 sales through TRREB's MLS® System in October 2021 – down by 6.9 per cent compared to the October 2020 record of 10,503. A strong double-digit increase in condominium apartment sales mitigated annual declines in low-rise home sales. The number of new listings entered into the system was down by almost a third over the same period, with consistent declines across all major home types.

The MLS® Home Price Index Composite Benchmark was up by 24.2 per cent year-over-year. The average selling price for all homes combined rose by 19.3 per cent year-over-year to \$1,155,345. The low-rise market continued to drive price growth in October, but the annual price growth for condominium apartments was in the double digits as well.

"The tight market conditions across all market segments and areas of the GTA is testament to the broadening scope of economic recovery in the region and household confidence that this recovery will continue. A key part of future economic development in the GTA will be the ability to provide adequate ownership and rental housing supply so that people can continue to move to the region to live, work and spend money in the local economy," said TRREB Chief Market Analyst Jason Mercer.

NOTES

- 1 - Sales, dollar volume, average sale prices and median sale prices are based on firm transactions entered into the TRREB MLS[®] system between the first and last day of the month/period being reported.
- 2 - New listings entered into the TRREB MLS[®] system between the first and last day of the month/period being reported.
- 3 - Active listings at the end of the last day of the month/period being reported.
- 4 - Ratio of the average selling price to the average listing price for firm transactions entered into the TRREB MLS[®] system between the first and last day of the month/period being reported.
- 5 - Average Listing Days on Market (Avg. LDOM) refers to the average number of days sold listings were on the market. Average Property Days on Market (Avg. PDOM) refers to the average number of days a property was on the market before selling irrespective of whether the property was listed more than once by the same combination of seller and brokerage during the original listing contract period.
- 6 - Active listings at the end of the last day of the month/period being reported.
- 7 - Past monthly and year-to-date figures are revised on a monthly basis.
- 8 - SNLR = Sales-to-New Listings Ratio. Calculated using a 12-month moving average (sales/new listings).
- 9 - Mos. Inv. = Months of Inventory. Calculated using a 12-month moving average (active listings/sales).
